Broadband Access Survey

NCDIT | NORTH CAROLINA DEPARTMENT OF INFORMATION TECHNOLOGY

Division of Broadband and Digital Equity

State of NC - Digital Equity Survey

The North Carolina Broadband Survey is designed to gather information on locations in the state without adequate internet access and speeds.
The information gathered from the survey will:

- Provide clear data to guide investment of funds through the state's Growing Rural Economies with Access to Technology grant program
- Inform research and policy recommendations
- Support strategic targeting of additional funding streams

The survey is a collaboration between the N.C. Department of Information Technology's Broadband Infrastructure Office and the Friday Institute for Educational Innovation at NC State University.
